

Section 540 - Sewer Rates and Charges

Section 540:00. Sewer Rates and Charges Established.

Subd. 1. The occupant of any premises connected with the municipal sewage system shall pay as basic rental charges for the use of said sewage system the amounts as set forth in the subdivisions which follow.

Subd. 2. The charge for sanitary sewage use shall be based upon quantity of water used upon and in the premises connected to said sanitary sewer system as the same is measured by the municipal water meter therein in use.

Subd. 3. Sewer rates shall be computed quarterly at one-half of the water billing for the first three months of the year, and which are billed to the consumer in the month of March. Sewer charges will be assessed only against customers that dispose of water through the sanitary sewer system.

Subd. 4. Multiple rates for customers with only one meter serving more than one customer will be based as in the past.

Subd. 5. Customers that do not have water meters installed will be billed three times the minimum water rate.
